M. S. I. INTRODUCES PLAN C

the most economical Medical Plan for the individual member

MSI benefits were formerly only available to group members under a common insurance through the medium of payroll deduction.

Now, effective January 1, 1958, M.S.I. introduces Plan C for the individual and his family. It is the most economical plan that you have ever needed for the individual. It is provided in the Plan C by member, the benefits already being provided under Group coverage.

Quarterly rates are as follows:

Single Member	\$5.00
Family of 2 or more	\$10.00
Family of 3 or more	\$15.00

The most economical medical plan, available in Alberta. All insureds should be sent to our Main Office at 1510 - 10th Street, St. Paul, Alberta.

Pappy Is Sign Of Remembrance For Dead Soldiers

Last November, five and a half million Canadians, in one of the greatest displays of national unity in the history of the Dominion, observed the day of Remembrance. It was a day when the people of this country, in a gesture of national unity, observed the day of Remembrance. It was a day when the people of this country, in a gesture of national unity, observed the day of Remembrance.

Canada Ranks Fourth In World Trade As Goods And Services Cross Borders Of Many Nations

More than \$10 billion in exports and imports crossed the Canadian border in the third quarter of 1968, according to the latest figures from the Department of International Trade and Commerce.

The total value of goods and services exported from Canada in the third quarter was \$3.4 billion, up from \$3.1 billion in the second quarter. Imports were valued at \$3.2 billion, up from \$2.9 billion in the second quarter.

The annual total of exports for the first nine months of 1968 was \$30.1 billion, compared with \$28.5 billion for the same period in 1967. Imports for the same period were \$28.1 billion, compared with \$26.5 billion in 1967.

Canada's position as the fourth largest trading nation in the world, behind the United States, the United Kingdom and the Federal Republic of Germany, was maintained in the third quarter.

The value of exports to the United States was \$1.8 billion, or 53 per cent of the total. Exports to the United Kingdom were valued at \$0.5 billion, or 15 per cent of the total.

Imports from the United States were valued at \$1.7 billion, or 53 per cent of the total. Imports from the United Kingdom were valued at \$0.4 billion, or 13 per cent of the total.

PHOTO OTTAWA IF ENEMY INVADES

In a brief session of the House of Commons, Hon. George Brown, Minister of Defense, stated that it was of the utmost importance that the Canadian government be able to identify any enemy forces that might invade the country.

He announced that the government had authorized the release of a photograph of a Canadian soldier, which would be used to identify any enemy forces that might be seen in the country.

Highway 36 Association Asks For Completion Of Road Plus Necessary Bridges Where Needed

A bridge over the Red Deer River in 1958 is the largest set one and a quarter million dollars. Included in these expenditures were the highway construction from Tabor to the Old Man River, \$1,000,000; Old Man River to Vauxhall, \$1,000,000; bridge construction between Tabor and Vauxhall, \$2,000,000; and a reinforced concrete girder bridge over the Old Man River at Vauxhall, \$2,000,000. The work on the two highway contracts, the report added, were completed while work on the bridges is now still in progress.

A letter was also received from Senator J. W. Blais, who said that he has the Association will be able to convince the Government of the importance of completing Highway 36.

Mr. Primm represented the Valley Chamber of Commerce at the meeting.

IT'S TRUE WHAT THEY SAY ABOUT THE '58 CHEVROLET!

Chevrolet's really going overboard for this '58 Chevy! In a little over a month, millions have exclaimed it from coast to coast. Crowds are coming in to see and drive the new Chevrolet—and they're buying in record-breaking numbers! Here—from actual on-the-spot comments in the showroom—is a sample of what they're saying.

- "It sure is most-looking car."
- "These beautiful fabrics. They look and feel so rich."
- "Body-Fisher cockpit certainly makes a big difference in quality."
- "Air Ride's really got it."
- "Nice inches longer. That's more for my money."
- "And look at that trunk space!"
- "Only Chevy lets me choose any power lines in every model."
- "Chevy's Air Ride really is not of this world."
- "I never thought you could get such a lot of Chevy's price."
- "Chevy's very bigger and has better this year."
- "How do they do it—look and is lower but there's no loss of extra road clearance."
- "I've seen them all, and now I'm buying Chevrolet."
- "I've owned it all the way."

HAVE YOU SEEN AND DRIVEN THE NEW CHEVROLET? WHEN YOU DO, YOU'LL AGREE... IT'S THE MOST AUTOMOBILE FOR THE MONEY YOU'VE EVER SPENT!

World Health Organization Now Celebrating Tenth Anniversary

Geneva, Switzerland, April 28.—The World Health Organization is celebrating its tenth anniversary today. The organization, which was created in 1948, is a United Nations agency that works to coordinate international health efforts. It is the largest of the specialized agencies of the United Nations, with a budget of \$1.2 billion and a staff of 1,500 people. The organization's main goal is to promote and coordinate international health efforts to prevent and control diseases, to improve the health of the world's population, and to provide technical assistance to developing countries. The organization has a wide range of programs and activities, including the control of communicable diseases, the promotion of maternal and child health, the control of non-communicable diseases, the promotion of mental health, the control of environmental health, and the promotion of health services. The organization has a long history of success, and it is expected to continue to play a major role in the world's health efforts in the years ahead.

to the World Health Organization and through the latter body has taken in shaping WHO's policies and programs. The WHO may most efficiently carry out its tasks entrusted to it by the nature of the world.

It is also possible to begin to estimate some of the benefits that will be derived from the WHO's co-operation. Rapid development of the WHO will make it sufficient to succeed with disease the influenza and polio-

There is a moment on the significance of the WHO's health peace and to pay tribute to the fact that the WHO is a new organization, whose some ten years ago the first constitution of the international health co-operation was signed. The WHO is needed to convert this vision to reality.

This message was given to the WHO by the Director-General of the World Health Organization.

Confusion About Jobs!

Recently published statistics have shown that the unemployment rate in Canada is 15.5 per cent. This is a significant increase from the 14.5 per cent reported in the previous month. The increase in the unemployment rate is due to a number of factors, including a decrease in the number of jobs available and an increase in the number of people seeking work.

WEDDING

Local Industry Can Be Tied With Growing Prosperity Of Alberta Says Gordon Morris

You can't hide from the facts!

The Gordon Morris, Assistant Director of Industrial Development, Department of Business Affairs, stated yesterday at a recent Chamber of Commerce Luncheon that the province of Alberta is experiencing a period of rapid growth and prosperity. He pointed out that the province is now producing more goods and services than it consumes, and that this is a sign of a strong and healthy economy.

Mr. Morris said that the province is now producing more goods and services than it consumes, and that this is a sign of a strong and healthy economy. He pointed out that the province is now producing more goods and services than it consumes, and that this is a sign of a strong and healthy economy.

Return a Strong Diefenbaker government

Today Canada stands at the brink of reality. Everything hangs in the balance. It will be down to the Diefenbaker government to lead us through this crisis. The Diefenbaker government has shown that it is the only government in Canada that is truly committed to the people of Canada. It is the only government that is truly committed to the people of Canada.

POSSIBLE WARM WEATHER, LITTLE RAIN OR SNOW

Through the map of average temperatures issued by the U.S. weather bureau for the past week, it is possible to see that the weather is generally warm and dry across most of the country.

There are some areas where the weather is still unsettled, but the general trend is towards warmer and drier conditions.

Report From The ALBERTA LEGISLATURE

By
KEN MASON

Edmonton—The Alberta Legislature has just adjourned after a session of two weeks. The session was marked by a number of important events, including the passage of several key bills.

The session began with a report from the Premier, Mr. James Stewart, on the state of the province. He outlined the government's policies and achievements over the past year.

One of the most significant events of the session was the passage of the Bill to Amend the Constitution of the Province of Alberta. This bill was introduced by the Opposition and passed by a narrow margin.

The session also saw the introduction of several other bills, including a bill to amend the Education Act and a bill to amend the Land Act.

The session ended with a vote on a motion of confidence in the government. The government was defeated, but the Premier announced that he would continue to lead the government.

TO PHOTOGRAPH ARROW IN FLIGHT

With head-mounted camera is worn by F.J. Jack, a member of the Royal Canadian Mounted Police, to photograph the Arrow in flight. The camera is mounted on a special harness and is controlled by a remote device.

The Arrow is a new Canadian aircraft, designed and built in Canada. It is a single-engine, high-wing aircraft with a maximum speed of 1,000 miles per hour.

The Arrow is being developed by the Canadian Aircraft Corporation, a private company. The government has provided financial support for the development of the Arrow.

to save time, you can go to the bank to get a cash advance on your credit card. But if you're not a cardholder, you can't. And if you are, you may not want to use your credit card to get a cash advance. It's a bad idea. You'll be charged a high fee, and the advance will be added to your credit card balance. So if you need cash, it's best to go to a bank and get a loan. Or, if you're a cardholder, you can use your credit card to get a cash advance. But be sure to read the terms and conditions first. You may be surprised to find that some credit cards charge a fee for a cash advance, while others don't. And some credit cards have a lower interest rate for cash advances than others. So it's important to know what you're getting into before you use your credit card to get a cash advance.

ROOST PAINT

A great number of farmers are now using the new Roost Paint. This paint is made by the famous George B. B. Co. of St. Paul, Alberta. It is a white, water-soluble paint that can be used on all types of buildings. It is easy to apply and dries quickly. It is also very durable and will last for many years. It is a great paint for farmers and is available in all hardware stores.

Noted Agronomist States His Views On Farm Produced Goods

A noted agronomist, who has been visiting in the area, has made a number of observations on the state of the farm produced goods. He has noted that the quality of the goods is generally good, but that there is a need for more variety. He has also noted that the prices are generally fair, but that there is a need for more information on the part of the consumer.

Water Safety

A group of people, who are concerned with water safety, have been holding a series of meetings. They have discussed the importance of water safety and have developed a number of guidelines. They have also developed a number of educational materials, which will be used to educate the public on water safety.

The group has also been working on a number of other projects, which are aimed at improving water safety. They have been working on a number of educational materials, which will be used to educate the public on water safety.

Brief Presented To Government By Catholics

EDMONTON (AP)—A Catholic priest, Father Thomas J. O'Connell, presented a brief to the federal government today, asking that the government take steps to ensure that the rights of Catholics are protected in the future.

The brief, which was presented to the federal government today, was a result of a meeting held in St. Paul, Alberta, last week. The meeting was attended by representatives of the Catholic community in the area, and they discussed the various issues that affect Catholics in the province.

Father O'Connell said that the brief was a result of a meeting held in St. Paul, Alberta, last week. The meeting was attended by representatives of the Catholic community in the area, and they discussed the various issues that affect Catholics in the province.

Erysipelas Some Sickness Is Most Frequent During Summer

The year previous to the present epidemic of the disease and severe type of erysipelas which occurred in 1957, the disease was reported in 1956 by Dr. G. D. (Douglass) Adams, of the University of Alberta, Edmonton.

Erysipelas is a bacterial disease which is most frequent during the summer months, appearing as a skin infection and severe illness in the infected person. It is caused by a high fever, depression, and a number of other symptoms. The disease is characterized by a red, swollen, and painful area on the skin, which is often accompanied by a fever, chills, and a general feeling of illness.

At present, proper treatment and early treatment are most important in reducing the danger. Erysipelas can be treated with antibiotics, and the patient should be kept in a cool, dry place.

What To Do In Case Of Fire

During the past ten days there have been a dozen fire alarms and a number of minor fires in the town of St. Paul. The fire department is now busy putting out the fires and the population goes with confusion and excitement.

One distressed housewife who was awakened by a fire alarm, rushed to her bedroom and found a fire burning in the fireplace. She called the fire department and the firemen came and put out the fire. She was very lucky.

Another panic didn't show generally. When you hear a fire alarm, don't panic. Stay calm. If you are in a house, get out as quickly as you can. If you are in a car, get out as quickly as you can. If you are in a public place, get out as quickly as you can. If you are in a public place, get out as quickly as you can.

Television Previews of Community Antenna Prove Reception Good

Wally Wall's Army was going back to normal Sunday after a record breaking show that drew an estimated 100 people to this city's preview of television history and more.

Frank J. Bower, manager of Blue Mountain Television Cable Corporation, reported Sunday that Friday's preview was exceptionally well attended, with women and children dominating the family Saturday afternoon and evening.

The display was presented in front of Wally Wall's television picture that is to be made available here by means of Blue Mountain TV's community antenna system, as well as to give them an opportunity to see the various makes of TV sets in action.

Approximately 100 models of 15 different makes were hooked up to the central cable system here in St. Paul. It is estimated that the system will be able to pick up all the stations and channels from the local area, as well as from the distant TV channels.

The system would fit into any of a small apartment or a large house. The system consists of an antenna system which is connected to a central cable system. TV Microwave Hook-up Gives Special Events

A recent \$2,000,000 Canadian contract by G. H. Thomson Ltd. to supply and install microwave hook-up for the Federal Television network, which covers all Canadian cities, was announced by the company.

The hook-up will take the network from the present 100,000 miles of coaxial cable to a system of 100,000 miles of microwave links. The hook-up will be completed by the end of 1959.

The system will use a series of microwave links between stations. The links will be installed in a series of towers. The towers will be spaced at intervals of 100 miles. The towers will be built by the company.

Air Force Day

SATURDAY, JUNE 14

At home and abroad the men and women of the Royal Canadian Air Force stand ever ready as guardians of our liberty and our way of life.

On Saturday, June 14, Canada notes Air Force Day. Many RCAF stations across Canada will be holding open houses, and you are invited to visit your Air Force.

Come and see at first hand something of your RCAF, its aircraft and equipment, the men and women who keep the Maple Leaf Roundel in the skies.

Summer Camp For Children

The nation's share of labor to "Victory" school for the recovery of war-torn and handicapped children is being made possible by the generosity of the St. Paul Chamber of Commerce. This year's camp is being held at the St. Paul Hotel, and will run from July 1 to July 15. The camp is open to all children between the ages of 6 and 12, and is free of charge. The camp is a place where children can enjoy the summer months, and where they can learn about the world and the people of other countries. The camp is a place where children can make new friends, and where they can learn about the importance of peace and understanding.

Differences Of Cultures Act As Strong Bonds In Canada

MONTREAL (C.C.N.)—A recent survey of Canadian culture has found that the differences between the various ethnic groups in the country are not a source of conflict, but rather a source of strength.

The survey, conducted by the Canadian Council on Social Development, found that the various ethnic groups in Canada have formed strong bonds with each other, despite their differences. This is due to the fact that the various groups have all contributed to the development of the country.

[illegible]

So we now sit at a good fire. It was just going down. Anyway we had little more than sitting up a good fire. I don't know what time it was. I think we were back the "thing" and took a good old St. Paul listening all the way. (Thanks to the left law you'll be driving a Buick car. When a car tries to please as hard that it blows a front plug you have to at least give it 100 marks for effort.)

Bismarck, did you tell her? We said we had a fine selection of meat to new word call. Well they didn't last long. We particularly advertised a good Mercury and it was gone when the paper hit the mail boxes. But we now have three outstanding values and surely they all won't go before you get over here to see them.

one of them is a convertible and for beautiful weather driving just what it there can heat a convertible

Congratulations to the town on completing the smallest hard surface on
Main Street. It is just wonderful and proves again that St. Paul is the most
going ahead town in Northeastern Aro.

See you next week when we ship up a grand old father in the.

Appointment Now Commissioner

OTTAWA, July 17.—The Minister of Agriculture, Mr. J. G. Bennett, today announced that Mr. J. G. Bennett, Minister of Agriculture, has appointed Mr. J. G. Bennett, Minister of Agriculture, to the position of Commissioner of the Canadian Wheat Board.

Mr. Bennett, who is 60 years of age, was born in 1908 in the town of St. Paul, Alberta. He has a B.S. degree from the University of Alberta and a M.A. degree from the University of Toronto. He has been a member of the Canadian Wheat Board since 1942 and has served as its President since 1958.

Better Outlook For Economy

More optimism is shown about the economic outlook for the summer months, according to a survey by the Canadian Manufacturers' Association.

The survey, which was conducted by the CMA's research department, shows that 60 per cent of the manufacturers surveyed expect a "fairly good" economic outlook for the summer months, up from 50 per cent in the previous survey.

Crash Failure Would Bolster

Crop Failures Won't Relieve Surplus of Canadian Wheat

Incidentally wheat will be a bumper product as a result of the widespread drought on the Prairies this summer. A major crop failure this year could result in shipping one or more million surplus bushels of wheat in 30 or 40 days.

But this is the worst possible way to solve our wheat problem. The surplus of wheat, The Financial Post is the first to point out, is not a problem that faces the merchant when he faces inventory in the marketplace. It is a problem. At least the merchant will get a price for his surplus wheat. There's nothing for a crop that

and others who depend directly or indirectly on the wheat market. A major crop failure here is a disaster for millions of people who depend on it, particularly the ones responsible for food marketing here.

Prairies Get Late Rain To Help Crops

Practically all districts in Western Canada received some precipitation during the past week and the first heavy rain of the season fell over much of the prairie provinces. In the south, the rain was heavy, but in the north it was light. The rain was much needed in the south, but in the north it was light. Mill Rate Increases

Town Budgets \$246,000 For 1958 Expenditure

Secondary Treasurer Laurent Richard presented the Town's annual budget for 1958 at the Monday meeting with figures showing an increase in expenditures of \$68,000 over last year and a mill rate up from 84 to 90, due mostly to higher school requisitions.

The Town has budgeted to spend \$246,000 in the year 1958 compared to expenditures of \$178,000 in 1957.

Requisitions from the two school districts have jumped from \$74,000 in 1957 to \$94,000 for the current year.

Homemaker

By John Davidson
A woman who is a homemaker is a woman who is responsible for the home. She is the one who takes care of the household and makes sure that everything is in order. She is the one who makes the food and keeps the house clean. She is the one who takes care of the children and makes sure that they are happy and healthy. She is the one who makes the home a comfortable and pleasant place to live.

Here are the

WINS

about exchanging your 3% wartime Victory Bonds

1. What is the Canada Conversion Loan of 1958?
It is an offer to replace all unmaturing 3% wartime Victory Bonds with new 25-year 4 1/2% Canada Conversion Bonds. (Other bonds of shorter term, bearing interest rates of 4 1/2%, 5 1/2%, and 7%, are also available.)
2. Why is the Government making this conversion offer?
In order to reorganize the national debt on a longer term basis and thus reduce the volume of Government securities outstanding over the next few years. There is a widespread public and business agreement that this is a sensible idea and will help protect the soundness of the Canadian dollar.
3. What interest will I receive on the new bonds?
On the 25-year bonds the interest rate is 4 1/2%; this is 50% greater than the old Victory Bond rate. The premium on the 14-year and the 7-year bonds is also increased.
4. Is a Victory Bond holder, still to be required to make any additional payments?
No. On the contrary, you will receive an automatic cash adjustment.
5. Do I have to convert my Victory Bonds?
You may, if you wish, hold your Victory Bonds until maturity and on the due date you will be paid their full face value. The conversion I can offer is open only to Victory Bond holders; and the "right" to convert your Victory Bonds is a special value until the offer expires. This is because there are many people trying to buy them in order to invest in the new bonds.
6. What will be the total of my cash adjustment?
It will depend on the type of exchange. For example, a \$300.00 Victory Bond exchanged for a \$300.00 Conversion Bond paying 4 1/2% will give you \$8.75 in cash immediately. This includes earned interest.
7. Does this offer include Canada Savings Bonds and other Government of Canada Bonds?
No. This offer is limited to unmaturing wartime Victory Bonds only.
8. What steps should I take if I am away from home on vacation and wish to take advantage of this offer?
You should write immediately to your bank, insurance dealer, stockbroker, trust or loan company, requesting literature and application forms.
9. Does it matter that the Victory Bond I hold is very small?
Every holder of a Victory Bond, even though the amount held may be only \$50, should take advantage of this offer. It is in his best interests as well as in the best interests of Canada.
10. How long is this offer open?
Until September 15, 1958. But it is to your advantage to convert as quickly as possible and have the benefit of the immediate cash adjustment.
11. Where can I exchange my Victory Bonds?
At any bank, investment dealer, trust or loan company, or through your stockbroker.

Cultivate For Protection Against Catworm Infestation Next Year

By Robert C. Adams
District Agricultural Extension Officer
The following is a list of the plants which are most likely to be infested by catworms. These plants are: alfalfa, clover, timothy, and other legumes. Catworms are a common pest of these plants and can cause significant damage. It is important to cultivate these plants properly to protect them from catworm infestation next year.

Students Attend Physical Training School At Red Deer

Physical sports, creative drama and organization techniques were among the broad range of topics presented by 127 athletes in a four-week residential leadership school completed recently at Red Deer Community High School. Students attending the school were: William Bouslog, Peter Brown, Brian Bouslog, Steve Papp and Horacio Galarza. Members of their youth league include, Bill Galarza, of Edmonton, chairman of the league, and to be today's host. The sportsman's course emphasized leadership ability in the field as well as to be performed. It was sponsored by a Committee of Edmonton Branch of the Department of Juvenile Affairs. All participants have received numerous course graduation certificates from the government.

WEDDING

The wedding ceremony of Mr. and Mrs. Paul and Mary Margaret was held at the St. Paul Hotel, Edmonton, on Wednesday, August 13, 1958. The bride was Miss Mary Margaret, daughter of Mr. and Mrs. J. H. Smith, of St. Paul. The groom was Mr. Paul, son of Mr. and Mrs. J. H. Smith. The ceremony was officiated by Rev. J. H. Smith. The wedding party consisted of the bride, groom, best man, maid of honor, bridesmaids, and flower girls. The reception was held at the St. Paul Hotel. The bride wore a white gown and the groom wore a tuxedo. The wedding was a private affair.

ONE COULD HAVE DANCED UNTIL DAWN

At St. Paul, Alberta, on Wednesday, August 13, 1958, the St. Paul Hotel was the scene of a very successful dance. The dance was held in the hotel ballroom and was attended by a large number of guests. The music was provided by a live band. The dance was a great success and the guests enjoyed it very much. The dance was held from 8:00 p.m. to 1:00 a.m. The St. Paul Hotel is a popular place for social gatherings and the dance was a great example of the hotel's excellent service.

WELGER

Straw Balers

A detailed line drawing of a Welger straw baler. The machine is shown from a side profile, facing right. It features a large, heavy-duty metal frame with a prominent front wheel and a smaller rear wheel. A complex system of belts and pulleys is visible on the side, connected to a large flywheel or engine component at the rear. The baler has a long, horizontal intake chute at the front and a vertical discharge chute at the rear. The drawing is done in a technical, hatched style typical of early 20th-century machinery illustrations.

How Does Farmer Determine Average Return Of Operating?

From Montreal, Quebec: These farmers can usually be persuaded to give up their average of about average per-acre, and in some cases, a large average with a few large ones and a few small ones. The farmer, however, in any case of farm will be getting average of his own average return on his own factor, says V. A. Peterson.

FOR

TV

FROM THE

TOWER

TV from the Tower brings another first to St. Paul... the credit for which is due to two enterprising young men, Mr. Jack Howey and Gordon Greenwood, who for the past six months have put in a tremendous effort into establishing a Community Antenna System into St. Paul.

TV Sales & Service

Now that you are assured of good TV reception in St. Paul, you'll want a television set to follow all the major events across the country. May we suggest that you look carefully through this newspaper for other advertisements from this firm displaying the largest variety of models of TV available on the St. Paul market.

Besides sales of better quality models, we provide experienced service for all your TV requirements as well as radio and appliances.

Phone System Unites Canada

The Trans-Canada Telephone System is a special organization of major Canadian telephone systems—both privately and publicly owned—designed to provide satisfactory telecommunication services across the country.

Since 1962, when Trans-Canada was founded, Canada has seen some of its most rapid economic growth. This growth has been made possible by the construction of the Trans-Canada Telephone System, which has provided the backbone for the nation's telecommunications network.

The Trans-Canada Telephone System has been engaged recently in two huge projects of vital importance to Canada's development. The first is the construction of the Trans-Canada Microwave System, which will provide the backbone for the nation's telecommunications network.

The second project is the construction of the Trans-Canada Cable System, which will provide the backbone for the nation's telecommunications network. MARTIN MEETS MASSER UNOFFICIALLY

Unites has qualified one of its Middle East, Paul Martin, M.P. member of the House of Commons, at the United Arab Emirates at the end of the month. The meeting was held in the city of Abu Dhabi, where the two men discussed the possibility of a telecommunications link between Canada and the United Arab Emirates.

Longest Microwave System Is Linking Canada Coast-To-Coast

Communication from St. John's to West Coast on the West Coast will be linked by the world's longest microwave system—4,000 miles of fibre-optic cables. The Trans-Canada Telephone System is the backbone of the nation's telecommunications network. YOUR KEY TO BETTER TELEVISION

TV FROM THE TOWER

There is no better time to buy Television Entertainment for your home. A full winter's enjoyment can be yours — top shows, stars, and sports events every evening of the week — for less than the price of your morning and afternoon cup of coffee.

Compare reception from the Tower with a home antenna or any of your TV dealers. Watch the Tower signal when the other fails. Then select your set from the complete stock now available in St. Paul.

CONNECTED DIRECTLY TO YOUR TV SET!

No Rabbit Ears - No Antenna

There is no more economical form of entertainment for the whole family.

COMPLETE INSTALLATION \$115.00

SERVICE CHARGE per month \$4.85

Easy terms can be arranged on the installation charge — \$25.00 down, \$8.40 per month for 12 months. Trade-in your antenna on good reception. We allow \$48.00 for standard 40 foot mast.

CAS Uses Canadian Electronics Equipment Exclusively In System

The equipment to be used in the Paul's television system has been selected by the Canadian company which has the characteristics of national manufacturing products. The selection of Canadian Electronics (Canada) Limited as the equipment was made mainly because this company has been the only in the CATV industry. Over 80 percent of the systems now in operation use Canadian equipment. Again, price was made a secondary consideration in quality by the company planning the installation.

The system uses one set of high power antennas, normally located at the highest elevation in the area, to receive the signals. From this station the signals are carried by the means of re-radiated cables suspended along Power and Telephone poles to all the houses in the community.

Automatic Gain Control (A.G.C.) equipment smooths out extreme variations of received signals due to fading, and prevents the signal levels throughout the system from changing.

CANADA GRAY WILL TOO FAST

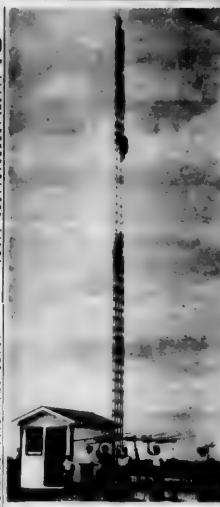

After two weeks in Canada, Canadian Electronics (Canada) Limited has been selected to install the Paul's television system. The company has been selected to install the system on the roads the line runs to the houses in the community. The company has been selected to install the system on the roads the line runs to the houses in the community. The company has been selected to install the system on the roads the line runs to the houses in the community.

Electronic effects are used to change signals. High gain, high efficiency are used throughout the system of regular intervals (approximately every 100 miles) to maintain signal strength. The "master" or "control" station is located in the Paul's area. The "slave" stations are located in the Paul's area. The "slave" stations are located in the Paul's area. TV System Is Very Flexible

The engineering and planning which has gone into the design of the Community Antenna System for St. Paul has been done with an eye to the future.

All the equipment to be used will provide for adding new channels which may later become available. As additional equipment is added, the system will be able to handle more channels. The system will be able to handle more channels. The system will be able to handle more channels.

Section Of The Tower

Construction of the TV tower was a major job. The tower stands above and clear of all other buildings in the Paul's area. The tower is built on a hill. The tower is built on a hill. The tower is built on a hill.

ULTRA-VISION FINE TUNING is built right in. The set is preset just once to receive every channel perfectly. Then, you get precise tuning each time you switch channels. This eliminates further fine tuning when switching channels.

REMOTE CONTROL TUNING lets you turn the TV set 'on' or 'off' as well as change channels and volume right from your favorite arm chair. G-E's Remote Control Tuning ignores the channels you don't use (Optional at slight extra cost).

LIGHTED CHANNEL INDICATOR immediately shows what channel is 'on'.

TONE CONTROL has push-pull 'wet and forget' volume control as well as a special tone control that gives you the exact sound quality you prefer.

Remote Control Handles Many TV Troubles

Stand-by channels, remote-like control equipment, automatic scanlines, automatic power supplies, automatic maintenance—these are some of the many features that the "Time-Channel" remote control system has to offer. The system is designed to handle the most common TV troubles.

In addition to the precision and reliability of the many components of the system, several specific protective features have been built into the system.

One of these automatic features is the automatic channel change which is built into the system. This prevents the viewer from being bothered by a channel change when he is not watching.

Another feature is an electronic alarm and control system that can control channels and "over-ride" as well as call for help.

Many of the most common TV troubles are caused by the over-voltage alarm system.

STRIKERS ON DEPRESSION HIT

Mr and Mrs A. McCallum, Hamilton, Ont., are a typical young couple who are hit by the strike in their home. They have a family of three children and must contend with the strike while the father is unemployed. They are on a tight budget and have to make do with what they have. They have no money for entertainment and have to make do with what they have. They have no money for entertainment and have to make do with what they have.

Many Technicians Involved In Building Microwave System

Constructing a microwave system is not an easy task. It requires the services of many technicians. These technicians are involved in the construction of the system, from the design to the final installation. They are responsible for ensuring that the system is built to the highest standards and is capable of handling the large amounts of data that will be transmitted through it.

Engineers building army at microwave rates in this province are not only building the system, but also the equipment that will be used to transmit the data. This equipment is complex and requires the services of many technicians. These technicians are responsible for ensuring that the equipment is built to the highest standards and is capable of handling the large amounts of data that will be transmitted through it.

But in spite of the fact that the system is being built at a rapid rate, it is still a long way from being completed. There are many more technicians who are involved in the construction of the system, and they are all working hard to ensure that the system is built to the highest standards and is capable of handling the large amounts of data that will be transmitted through it.

Eighty Percent Of Canadians Within Range Of Television

A recent survey conducted by the Canadian Broadcasting Corporation has shown that eighty per cent of Canadians are within range of television. This is a significant achievement, considering that only a few years ago, television was only available in a few major cities. The survey was conducted by the Canadian Broadcasting Corporation, and it showed that eighty per cent of Canadians are within range of television.

CNR Holds Board Of Directors Meeting In West For First Time

The Canadian National Railway held its first board of directors meeting in the west for the first time, at the Hotel Vancouver in Vancouver, B.C., last week.

The board, which is made up of 12 members, met for a three-day session, during which it discussed the railway's operations and financial results for the first nine months of the year.

The board is headed by J. A. McCreary, president of the railway, and includes representatives from the federal government, the provinces, and the railway's shareholders.

The meeting was held in a large ballroom at the hotel, and was attended by about 100 guests, including members of the press and the general public.

The railway's financial results for the first nine months of the year were reported to be satisfactory, with a profit of \$1.5 million.

The board also discussed the railway's plans for the future, including the construction of new lines and the purchase of new locomotives.

Mr. A. McCreary

Card of Thanks

I wish to thank my friends and relatives for the expressions of sympathy and condolence in the death of my dear husband, Mr. A. McCreary, who passed away on October 10, 1958.

His death was a great loss to me and to our family. I am grateful for the many kind words and letters I have received from you all.

Very truly yours,
Mrs. A. McCreary

Edmonton Fall Show & Sale Features Carcass Judging

At the Edmonton Fall Show & Sale, which is being held at the Edmonton Convention Centre, a special feature is the carcass judging competition.

This competition is open to all breeders of livestock and is a popular attraction for the general public.

The judging is done by a panel of experts who select the best carcasses in each breed.

The winners of the competition will receive prizes and their names will be recorded in the show book.

Priest Takes Long Holiday

A priest from the Diocese of Edmonton is taking a long holiday in the mountains of British Columbia.

The priest, who is on sabbatical, is spending his time in the mountains, enjoying the scenery and the peace of the area.

He is expected to return to his duties in the diocese in a few weeks.

The following article was brought to our attention by a local merchant who clipped it out of the "Alberta Retailer". Official organ of the Retail Merchants Association of Alberta. It reflects some ideas

chants of Longwood, Sedgwick, Killen and Strone. These towns considered following but did not make a beginning until May of 1907. At this time there were requests from residents and the general consumer that the stores in these areas start the sale of goods forward by the merchants in favour of the Monday close were as follows:

Fresh or new merchandise not available in the resorts because of trucks loading until Monday for delivery Tuesday, or having

Remembrance November 11th

By COMRADE NORMAN SLATER

Armistice Day 1918 - Remembrance Day 1958
A little difference in the title but the same deep sense of thanksgiving for having the men of our nation going forth to keep the enemy from our shores, and Remembrance of those gallant souls who did not return to live again in the safety of a country saved from invasion by their courage and sacrifice.

Let us remember that we are the survivors of the war who made the sacrifice.

Let us remember the soldier and sailor who were the backbone of our nation.

Let us remember the man who gave his life for his country.

Let us remember the man who gave his life for his country.

Let us remember the man who gave his life for his country.

Let us remember the man who gave his life for his country.

Let us remember the man who gave his life for his country.

A guy wheels in off the street the other day "Hey" he hollers. "How come an eight cylinder car can burn six cylinders gas?" Now we aren't a mechanic so we asked Fred McDowell (I think that guy has a carburetor in a heart and an ignitor coil for a brain what he doesn't know about his business you could stick in your eye and not even blink). Well anyway Fred said it was all in the fine adjustment of the synchrony coupled with the careful engineering of the magic box.

Rules And Regulations Govern Making Of Christmas Parade

With Christmas approaching, the City of St. Paul is now in the process of making its annual Christmas parade. The public is requested to observe the following rules and regulations in order to insure a successful and safe parade.

The parade will be held on Saturday, December 13, at 10 o'clock. The route will start at the City Hall and proceed down the main street to the waterfront.

Participants must arrive at least one hour before the start of the parade. All floats and bands must be equipped with proper lighting and sound equipment.

Drivers of floats must be licensed and must have valid insurance. All participants must follow the instructions of the parade committee.

Any violations of these rules may result in the exclusion of participants from the parade.

Scientist Van Braun Stakes Ideas Of Future Satellites

Washington, Nov. 24 (AP)—The scientist who led the U.S. space program in the early days of the space age, Wernher von Braun, today staked out his ideas for the future of satellites.

He said that the first step would be to build a satellite that would be able to stay in orbit for a long time. He said that the next step would be to build a satellite that would be able to move around in orbit.

He said that the third step would be to build a satellite that would be able to communicate with other satellites. He said that the fourth step would be to build a satellite that would be able to do all of these things.

He said that the fifth step would be to build a satellite that would be able to do all of these things. He said that the sixth step would be to build a satellite that would be able to do all of these things.

He said that the seventh step would be to build a satellite that would be able to do all of these things. He said that the eighth step would be to build a satellite that would be able to do all of these things.

He said that the ninth step would be to build a satellite that would be able to do all of these things. He said that the tenth step would be to build a satellite that would be able to do all of these things.

He said that the eleventh step would be to build a satellite that would be able to do all of these things. He said that the twelfth step would be to build a satellite that would be able to do all of these things.

He said that the thirteenth step would be to build a satellite that would be able to do all of these things. He said that the fourteenth step would be to build a satellite that would be able to do all of these things.

He said that the fifteenth step would be to build a satellite that would be able to do all of these things. He said that the sixteenth step would be to build a satellite that would be able to do all of these things.

He said that the seventeenth step would be to build a satellite that would be able to do all of these things. He said that the eighteenth step would be to build a satellite that would be able to do all of these things.

He said that the nineteenth step would be to build a satellite that would be able to do all of these things. He said that the twentieth step would be to build a satellite that would be able to do all of these things.

He said that the twenty-first step would be to build a satellite that would be able to do all of these things. He said that the twenty-second step would be to build a satellite that would be able to do all of these things.

He said that the twenty-third step would be to build a satellite that would be able to do all of these things. He said that the twenty-fourth step would be to build a satellite that would be able to do all of these things.

He said that the twenty-fifth step would be to build a satellite that would be able to do all of these things. He said that the twenty-sixth step would be to build a satellite that would be able to do all of these things.

He said that the twenty-seventh step would be to build a satellite that would be able to do all of these things. He said that the twenty-eighth step would be to build a satellite that would be able to do all of these things.

He said that the twenty-ninth step would be to build a satellite that would be able to do all of these things. He said that the thirtieth step would be to build a satellite that would be able to do all of these things.

He said that the thirty-first step would be to build a satellite that would be able to do all of these things. He said that the thirty-second step would be to build a satellite that would be able to do all of these things.

House Plants May Be Victims Of Insect Attacks At Any Time

House plants may be victims of insect attacks at any time, according to a horticulturist from the University of Alberta. He says that insects can be found on house plants at any time of the year, and that they can be very destructive if not caught early.

He says that the most common insects found on house plants are aphids, mealybugs, and scale. He says that these insects can be found on a wide variety of house plants, and that they can be very destructive if not caught early.

He says that the best way to catch these insects is to inspect the plants regularly. He says that if you find any insects, you should remove them immediately, and that you should also inspect the other plants in your collection.

He says that if you have a large collection of house plants, you should consider having them inspected by a professional horticulturist. He says that this will help you to catch any insects before they become a problem.

He says that if you have any questions about house plants, you should contact the University of Alberta. He says that they will be happy to help you with any problems you may have.

BELIEVES FRANKLIN'S NEW BUILT CARRIAGE

Mr. Franklin, who is a well-known horse breeder, has built a new carriage. He says that the carriage is made of the best materials, and that it is very comfortable and easy to drive.

He says that the carriage is very popular, and that many people have bought it. He says that he is very proud of his new carriage, and that he hopes it will be a success.

He says that he has been working on the carriage for a long time, and that he has learned a great deal about building carriages. He says that he is very happy with the result, and that he hopes it will be a success.

The Red Cross provided assistance at the Springhill mine disaster. They provided food, clothing, and other necessities for the families of the miners who were killed or injured in the disaster.

The Red Cross also provided financial assistance to the families of the miners. They provided money to help them pay for their living expenses, and to help them with the funeral expenses of their loved ones.

The Red Cross also provided medical assistance to the miners who were injured in the disaster. They provided first aid, and they arranged for the miners to be taken to the hospital.

The Red Cross also provided emotional support to the families of the miners. They provided a listening ear, and they provided a shoulder to cry on. They provided a sense of community, and they provided a sense of hope.

The Red Cross also provided information to the families of the miners. They provided information about the progress of the search for the missing miners, and they provided information about the compensation that the families were entitled to.

Five-Day Week Not Too Well Received

Discourtesy of the five-day week at the Chamber of Commerce meeting last night resulted in a majority of opposition from the merchants present.

The brief proposal and presented by Mr. T. P. Parsh was introduced in the form of a resolution for recommendation by the Chamber.

After lengthy discussion and expression of views from a cross section of merchants, a motion to have the Chamber investigate the matter further was tabled for vote at the next meeting.

Local Unemployment Problem

The vital importance of winter employment to the economy of the province is being realized by both the federal and provincial governments. From talk the government has to take steps to help out and cut winter unemployment.

Although the programs have been successful in covering more types of projects and more money is being provided, it fails to solve completely the problem in the smaller towns.

Mr. A. W. Morrison, Provincial Deputy Minister of Municipal Affairs, has been informed recently that municipal projects such as gravel crushing, snow plowing, bridge building and rock work will be eligible for federal aid.

Under the program Ottawa will pay 50 percent of the labor cost incurred in municipal projects. The program is designed to help out in the winter months, but preference is given to the winter months, but preference is given to the winter months, but preference is given to the winter months.

Alberta has agreed to pay 25 percent of the labor cost on projects approved under the Ottawa plan, leaving municipalities to pay the remaining 25 percent.

In addition to paying part of the labor cost the federal government will lend up to \$4,000.00 to municipalities to help them finance special projects.

The Chamber of Commerce has been informed that the federal government is planning to present a bill to the House of Commons to help out in the winter months.

Paul and the Municipal Affairs Department are planning to present a bill to the House of Commons to help out in the winter months.

er).

the subject a lot I must tell you about a particular meeting
of some of the party down there. What anyone - what
meeting took place tonight and while we don't know who
the names are, we do know it was a "BIG HOT TIME"
THINGS! If any of the "members" at that meeting want
to come, they have only to apply each BETHOOGAAL

I heard. Well apparently a lot of people think the "OMG MEET-
ING" has been cancelled. But I can assure you that's not true.
I've got a letter from the "OMG MEETING" which says that
and most of you have heard the contest was on
for the largest family. I received one entry
from a person who was last listed there. That's your name
or just a pseudonym.

1th or 12th (pending when you get that). THERE'S A PLACE
where checks are still dropping fast. Last week one of our
members had a check for \$80 dollars. Today Money is running
wider and. A happy Monday and a happy People.

Remember checks in the glove compartment ranging from \$100 to \$500 (dollars to you) are yours as a Christmas bonus.

Remember those "before me" ACT RIGHT NOW? Please don't miss these clues in the glove compartment ranging from the 1950s (deafers) to you as you're as a Christmas home - or of THUMB CARS - compare these carefully, and you'll be up to start with and the house is our Christmas present!

...as in history togethery happy for the Christmas festival... before the 350 day EVERYBODY wants to turn-up... and part of the next week to have it done but we'll... please have a hair? We can do a really fun job over... well it's the best barber... on Tuesday so no need... of your car... up to Grandma's house with a car... you will be happy that you took the advice of...

The Old Shave Man.

Co-operation in History

Shows the various instances of an individual's contribution to the history of the world. It would not be unreasonable to say that the history of the world is a story of co-operation. It would not be unreasonable to say that the history of the world is a story of co-operation. It would not be unreasonable to say that the history of the world is a story of co-operation.

It is a certain, however that life is the most important of all. It is the most important of all. It is the most important of all. It is the most important of all. It is the most important of all.

The success or failure of co-operation can be measured in monetary percentages. The volume of business in any given period is a measure of the degree of co-operation. The volume of business in any given period is a measure of the degree of co-operation. The volume of business in any given period is a measure of the degree of co-operation.

Brain Power in Men

In totalitarian countries a subject (person) is properly identified when he has learned enough to do his work efficiently, whether as a typist, doctor, or top scientist. In democratic countries a citizen must learn all this and much more besides. He must prepare himself not merely for co-operation in his chosen field but must also learn to become a responsible citizen and a contented human being. Above all, he must be taught how to use his mind independently.

A much higher quality of education is required to turn children into thinking men than to turn them into merely competent men. Democratic education must do both. Better brains have been built in greater and of greater quality of good hard thinking than we are today. Mine men from among by putting the mind to work. He has now so made the world that only the good and the true have been power can make his service in democracy.

—Rear Admiral H. O. Blake, U.S. Navy

Freedom Of Speech

Without free speech no march for truth is possible, without free speech no democracy is possible, without free speech no progress is possible, without free speech no future is possible.

Before a thousand-fold abuse of free speech than denial of free speech. The abuse of free speech is a danger to the life of the people, and the denial of free speech is a danger to the life of the people.

—Charles Bradshaw

when buying is also building

Do you ever drive long distances... BIGHV to shop for "bargains"?

If so, you're missing yourself for nothing, because the biggest bargains can be had right here from your local merchants.

How's why? Every dollar you spend in our town does double duty... gives you a bonus product.

Put it makes you a partner in our town's momentum in building a better community for you and your family to live in.

The educational, recreational and health facilities we need for better living come mostly from the taxes paid by local businessmen. The more business they do, the more taxes they pay, the more taxes they pay, the more of the good things of life will be ours.

So doesn't it make sense to keep your shopping dollars at home, especially when the quality, style, selection and price of the merchandise offered are just as good as elsewhere?

HERE'S HOW YOU BENEFIT BY SHOPPING AT ALL YOUR SHOPPING LOCALS

When you buy at any of these towns in metropolitan St. Paul:

Let's Eat

BY BARBARA ALLEN

CHRISTMAS DINNER
 The Christmas dinner is the most important meal of the year. It is a time when family and friends gather together to celebrate the birth of Jesus Christ. The menu should be planned well in advance to ensure that everyone has something to eat and that the meal is served at the right time. The traditional Christmas dinner in Canada includes turkey, roast beef, ham, and various side dishes. The meal is often followed by a dessert and a glass of wine or champagne.

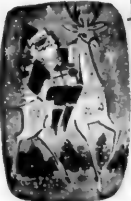

CANADA MAKES ITS LAST OF 1958

Last of the 1958's, the 1958th anniversary of the birth of Jesus Christ, is celebrated in Canada. The day is marked by various religious and secular activities. In St. Paul, Alberta, the celebration is held at the St. Paul's Cathedral. The service is attended by a large number of people, including many children. The celebration is a time of joy and reflection for the community.

New Year's Big Scottish Day

Christmas is over, and the New Year's Eve celebration is in full swing. The Scottish community in St. Paul, Alberta, is celebrating the New Year's Eve with a big Scottish Day. The celebration includes a variety of Scottish music, dance, and food. The event is held at the St. Paul's Scottish Club and is attended by a large number of people. The celebration is a time of joy and celebration for the Scottish community.

Workers Strike, Income Drops

Anytime that the workers of the Dominion Bureau of Statistics have been asked to estimate the effect of the strike on the economy, the answer has been the same: a drop in income. The strike has caused a drop in income for many workers, and this has caused a drop in the economy. The drop in income has caused a drop in the economy, and this has caused a drop in the economy.

Winners of Jaycee Christmas Lighting Contest

The Christmas spirit—joy, happiness and light—was accentuated in St. Paul by three displays who won the first prizes in the Junior Chamber of Commerce's Christmas Lighting Contest. They are respectively, first, second and third position from the top, the Robinsons of St. Ursula Pigeon, also Tamm and George Cyr, over 80 homes decorated and Christmas decorations this year and gave St. Paul a bright and happy Christmas season.

Play Short-Handed

Hornets Take Lead By Defeating Bonnyville

Short-handed with half a team, playing two lines against three, but full of determination and plain "Guts" the Bonnyville outplayed the St. Paul Hornets to the tune of 4-3 before a large crowd in St. Paul on Wednesday.

It played the St. Paul back on top of the league with one point lead over Bonnyville.

Doctor For Health Unit

Dr. C. P. Perovani has been appointed temporary health unit doctor for the St. Paul Health Unit. He will remain in charge here for approximately one year, pending the arrival of a permanent doctor who has been selected.

Dr. Perovani is from Jasper, Minn. He arrived with him a number of physical examinations and was carried on for about half a day.

Mr. Jerry Harrison was in charge of the Health Unit at the Medical Office. He will continue as leader there.

Water Break In Cold Weather

Water trouble usually comes in winter weather and a main pipe in Bonnyville, Minn., has broken.

Water leaking out of the main at the corner of George Perry's garage search for the leak at the corner of the main.

By Monday morning the third main was being dug in an attempt to locate the broken pipe. The ground is frozen and it is a difficult job to dig with a shovel. The workers are using a jackhammer to break the ground and are expected to finish the work by Tuesday.

Two miles have been working since, warning up all the pipes in the area.

Regular monthly meeting of the Ladies Auxiliary in St. Paul's Hospital will be held on Wednesday, January 14, 10:30 a.m. at the Hospital.

Crew Stuck In Drift On New Year

Utilities Have Tough Time

Power workers on Farman (Hillier) line were generally stuck to normal by Friday noon, January 3, following a violent storm which disrupted power and communication service all over the province New Year's Eve.

Subscribers everywhere, however, were not the ones who were stuck to normal by Friday noon, January 3, following a violent storm which disrupted power and communication service all over the province New Year's Eve.

Peterson Acclamation Choice-- Social Credit

Full confidence was given Hon. Ray Peterson, Minister of Industries and Labour, at a nomination convention Monday in the Parish Hall at St. Paul where he was again chosen for the third time to represent the Social Credit party in a provincial election which will no doubt be held during 1960.

The convention, attended by a large crowd of nearly 150 persons, in the face of extremely cold weather, was warm in its support of Mr. Peterson who was described by Chairman Bill Peterson of Kih Point as "an M.L.A. who has never let his constituents down, looked after and was, nevertheless, and a man who will never be equalled for about anywhere."

There were 25 accredited delegates who registered, but not all came to vote as no voting candidate was announced. The convention was held in the Parish Hall at St. Paul. After a two minute recess to give the meeting proper time to name other candidates, Mr. G. Kennedy accepted motion to name and elected Mr. Peterson the candidate by acclamation. The candidate by acclamation is the candidate by acclamation.

Speaking on behalf of Mr. Peterson and the Provincial Government, Mr. Ove Kennedy, President of the Alberta Social Credit League and National Convention said it is about time the people "went from the left" and not be let down by the subcommittee of the Social Credit.

He said the old cry of the left to change the government just for the sake of a change is a dangerous one. "I don't want to have the left."

He explained that Social Credit is a system of truth, based on the principles of justice, honesty and integrity. It is a system of truth, based on the principles of justice, honesty and integrity. It is a system of truth, based on the principles of justice, honesty and integrity.

80 Homes Decorated

Urgel Pigeau Wins Jaycee Christmas Lighting Contest

St. Paul glittered like a Christmas tree during the holiday season and the brightest star in the galaxy of entries was that of Mr. and Mrs. Urgel Pigeau who were awarded first prize in the annual Junior Chamber of Commerce Lighting Contest.

Judged second was the entry of Mr. and Mrs. also Tamm and George Cyr in the contest of more than 80 homes.

Mr. Ken Tamm, Chairman of the organization, commented on the entries and said that the contest was a success. He said that the contest was a success. He said that the contest was a success.

Bouncing Girl New Year Baby

The St. Paul News on Jan. 8, 1959, at 11:15 a.m. to deliver the first baby of the year in St. Paul. The baby was a girl, named Mary, born to Mr. and Mrs. Harrison.

The new arrival was introduced as a beautiful baby girl weighing 12 pounds, 12 ounces and was christened with the name, Mary.

On behalf of the Junior Chamber of Commerce, Mrs. Harrison and Mrs. Harrison presented the new baby with a complete outfit.

The new baby was the eighth of a family of five children. The mother and father are both employed in the city and have many friends.

Mrs. Harrison was a patient of Dr. Harrison.

Unemployment Grants?

Facts divulged in a brief presented to the Chamber of Commerce last week on the unemployment situation in this area were very revealing and proved that the unemployment situation is serious. The Municipalities and the Towns both reported that the unemployment situation is serious and that the unemployment situation is serious.

Construction on a new public school additions to the Glen Avon and renovation of the Provincial building a winter projects were in fact providing employment for some farmers and other laborers in town who had been unemployed.

It was interesting to note that the Federal Government is providing assistance in winter projects were in fact providing employment for some farmers and other laborers in town who had been unemployed.

The plan in fact pointed out that the Town was unable to make use of the money it was receiving from the Federal Government in winter projects were in fact providing employment for some farmers and other laborers in town who had been unemployed.

When it is considered that the unemployment situation is serious and that the unemployment situation is serious, it is not surprising that the unemployment situation is serious.

Anniversary Meeting

Already the organization of St. Paul's fifty anniversary has been decided long.

The St. Paul Chamber of Commerce has called for the anniversary of the Chamber of Commerce to be held in St. Paul.

The meeting will be held in the Town Hall on Friday, February 6th, 8:00 p.m.

Wanted-Helping Hand

Many workers here in Canada find it hard to find work in the winter months.

It would not only build good character but it would also help to improve the character of the community.

It is not just a few people who are interested in this project but it is a large number of people who are interested in this project.

It is not just a few people who are interested in this project but it is a large number of people who are interested in this project.

Lack Unity For Anniversary

We were pleased at the attendance and interest in the 50th anniversary commemorative meeting last Friday but were disappointed at the outcome.

What had been hoped for would be a united effort on the part of all factions to investigate and make St. Paul's contribution to the commemorative work as a whole.

The idea in mind had been to dedicate the year to a 50th Jubilee theme with a punchy celebration of the past three days or a week in which all the citizens of St. Paul took part.

This proposal and discussion from the Parish Council that they intended to celebrate in 1980 instead and are not prepared to do anything for 1982.

It is going to be a disappointment to the many who have been working for so long to observe the anniversary of the 50th anniversary of the Jubilee in December 1980.

It is a pity that the inception of the St. Paul community came about in 1930 when some leaders turned up to find that the parish was in a state of confusion and that the country was in a state of confusion.

Consequently, 1980 should be the year for celebration. From the many good reasons for its past.

Not Ready For 5-Day Week

The questionnaire conducted by the St. Paul Chamber of Commerce and through the columns of this newspaper, has revealed at least an idea of the opinions of the people.

One of the answers here, some of the answers were helpful and some were unhelpful. It is amusing how certain individuals who have been active in the past will take advantage to remind their colleagues and colleagues but such as Mr. Aspinwall was asked we put it.

Official summary of the comments received indicate that St. Paul is not yet ready for a five-day week for two main reasons. The public is not yet ready for a five-day week for two main reasons. The public is not yet ready for a five-day week for two main reasons.

However, it is obvious from the responses to the questionnaire that St. Paul is already well on its way to becoming a five-day week for two main reasons. The public is not yet ready for a five-day week for two main reasons.

The objections from the merchants are natural in that they fear loss of business or even negative publicity and damage to their area who have no intention of closing, even.

Raffle-Bingo Ban Unpopular

The ban on Sunday Bingos and raffles, devised last week is meeting with some adverse reactions from the public.

The question has been made clear that St. Paul is not discriminating against what this is being related across universally in Alberta and other provinces.

The rationale stated in the fact that most authorities do not prefer the law to be broken. The complaint has been made and useful to interfere of publicity in support of the law.

Lots and lots have been made at the recommendation of the people and then they become obnoxious and interfere with individuals who are neutral evolution to be a part of the change.

Report From Ottawa

In a report coming from Ottawa, the Conservative Party's position on the federal government's proposed new income tax system is being made known. The report, which was prepared by the party's research committee, states that the new system would be a "major step forward" in the direction of a more equitable and simpler tax system.

The report also points out that the new system would result in a significant increase in the tax burden on the middle and upper middle classes, while providing a substantial relief for the lower income groups. This, it claims, would be a "regressive" system.

In two statements made in the House of Commons, the Conservative Party's position on the new income tax system was made known. The first statement, made by the party's leader, stated that the new system would be a "major step forward" in the direction of a more equitable and simpler tax system.

The second statement, made by the party's research committee, stated that the new system would result in a significant increase in the tax burden on the middle and upper middle classes, while providing a substantial relief for the lower income groups. STUDENTS' LOW BATTLE OF MINDS

Keith Breen, left, and Chris Gaudin have been in a low battle of minds over the issue of the new income tax system. Breen, a student at the University of Alberta, is a member of the Conservative Party, while Gaudin is a member of the Liberal Party.

As the days go by, the battle between the two students continues. Breen, who is a member of the Conservative Party, is arguing for the new income tax system, while Gaudin, a member of the Liberal Party, is arguing against it.

The battle between the two students is a reflection of the larger debate in the House of Commons. The Conservative Party is in favor of the new income tax system, while the Liberal Party is opposed to it.

As the debate continues, it is clear that the new income tax system is a major issue for the Conservative Party. The party's research committee has prepared a report on the new system, and the party's leader has made two statements in the House of Commons.

Propose New Car Cautions Deaths

Proposed new car regulations require that all new cars must have a seat belt. The regulations also require that all new cars must have a certain amount of safety equipment, including air bags and anti-lock brakes. The regulations are designed to reduce the number of deaths and injuries caused by car accidents.

The regulations are being proposed by the federal government. The government is arguing that the regulations are necessary to protect the public. The government is also arguing that the regulations will result in a significant increase in the safety of new cars.

Hockey Post Mortem

The hockey season is over, at least it was ended last Wednesday night when the Canadiens beat the Flyers 4-1 in the final game of the playoffs.

The post mortem is being conducted by the hockey writers and the fans. The question is: what happened to the Canadiens? They were the team that was supposed to be the best in the world, but they lost in the finals and the playoffs.

There is no doubt that next year's hockey season will have to be more interesting and more exciting than this year's. The Canadiens will have to be in the playoffs again.

This year was a repetition of the last year. The club had to fight through the playoffs with a half team. Eighteen players were registered for the playoffs, but only ten were used.

Part of the blame can be attributed to the players who did not play well. The Canadiens were not in the playoffs.

In the end, the Canadiens did not win the Stanley Cup. They were not in the playoffs.

Ex-President Lacks Sees Own Case

Dear Sir:

I wish to refer to an article appearing in your paper of February 28th, 1966, entitled "Ex-President Lacks Sees Own Case".

At the time I read this article, I was very surprised. I had not heard of this article before.

I would like to say that I am very sorry that I did not see this article earlier.

I am sure that you will find this article very interesting.

Artificial Curling Ice

The curling season wound up last week with men's doubles and pairs and women's singles and mixed doubles.

Out of the situation has come much excitement by members of the curling community. There is no doubt that the advent of artificial ice has been a boon to the curling community, providing a much larger venue.

However, as we review the situation, we learn that St. Paul is ready to support the high cost of installing artificial ice and the over-riding of a plan.

The club membership has always been small and is far from a high percentage of the population. The amount of curling is small in the town and the district. The registration has ranged around 30 men and 10 women in the last year.

Election Prediction

If, as seems likely, this month of the general election, then the momentum for the vote to be taken in the fall will be in the hands of the Liberal Party in the Old Election is taken as a sign that the government's stock is presently running pretty high in the eyes of the voters.

Easter Well Observed

That St. Paul is a town with religious feeling and faith was witnessed during the Holy Week services. A number of parishioners of all faiths observed the religious functions of their churches.

AMA Driving Courses

Last week an open invitation was made to Alberta Motor Association members and their dependants to enroll in a driving school.

It is a rare opportunity for beginners and novices to learn to drive from qualified instructors in a safe, modern, well-equipped vehicle. The course is designed to give you a high ability to drive and control the vehicle in a safe manner.

In other terms along the circuit, there have been a number of accidents, with a maximum involvement and considerable damage.

St. Paul Born Out Of Metis Colony Experiment By Oblates

St. Paul, Minn., April 6.—The Oblates of the Holy Spirit, who have been working for many years to bring about a union of the Metis and the white people of the Northwest, today announced that they had succeeded in their mission. They have established a new colony of Metis in St. Paul, Minn., which is the first of its kind in the United States.

The colony is located in the heart of the city, and is composed of a group of Metis who have been living in the Northwest for many years. They have been working to bring about a union of the Metis and the white people of the Northwest, and today they have succeeded in their mission.

HOW FERTILIZER BOOSTS YOUR PROFIT ON CATS

YOU CAN MAKE UP TO \$8.00 PER ACRE MORE!

Actual field tests show how your net profit per acre of summer-fallow oats is boosted by the use of Elephant Brand fertilizer.

In the table below, note that the increased profit figure takes the cost of fertilizer into consideration. An increased profit of over \$6.00 per acre is certainly worthwhile.

Fertilizer per acre	50 lb. 11-40-0 (Cost \$2.70)
Increased yield per acre	10 bu. (worth \$18.00)
YOUR INCREASED PROFIT PER ACRE	\$6.30
OR \$63.00 ON 100 ACRES OF OATS	

*Fertilizer and figures per acre are approximate.

When properly fertilized, oats grown on stubble land will show an equally profitable return per acre. For greater and profits per acre from any crop, ask, modern, pure Elephant Brand dealer listed below for the right

Budget Holds No Surprise

The experts forecasting the federal budget held no real surprises. They did not have too much trouble agreeing on the general trend and most predictions, except for the details are right on the button.

To realistic persons it was obvious that there had to be an increase in the deficit. The government had to cut down on its outlay for the deficit to be reduced. The rate in personal income tax, and corporate taxes, along with the increase in sales tax, will greatly affect many communities. The rate of the sales tax is at least a 10 per cent increase in most communities.

Some retailers have already indicated they will pay for it from their profits rather than the consumer. The rate of living costs has increased.

All in all we can conclude that the budget was not far from the mark. It was a realistic picture of the country's financial position. It was a realistic picture of the country's financial position. It was a realistic picture of the country's financial position.

Watch Those Grass Fires

An example of what can happen when a grass fire gets out of hand was witnessed in the country last week.

Although there could not be any doubt as to the efficiency of the fire department, the same thing could not be said of the fire department.

After the grass or eight counties reported during the past year, the fire department had a total of 100 fires. The fire department had a total of 100 fires.

Fire insurance rates in many areas are much lower than in other areas. This is due to the fact that the fire department is not as efficient as in other areas.

Why gamble a lifetime's work for a few dollars?

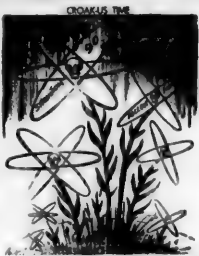

Spring Is Here To Stay

All during March and up until now in April we have been keeping our fingers crossed, hoping for a beautiful spring weather, but apparently the weather is still cold.

We were almost at a point where we can relax and feel the sun in our faces, but the weather is still cold.

The signs all indicate it, the crops are starting to bloom again. The weather is still cold.

The first real symptoms of a cold in health are of heat and moisture found on the nose. —Young

Earning Career Important

Earning a living on a comfortable basis is becoming more complex than ever. The important professions and other branches of technology open up new career opportunities, though they are very good and can be made if you are hard to find. It is a high school to a career for the future even before he gets out of grade school to prepare him adequately for the future if he is to make a career of his profession. To start out on the career track means a definite ambition and to be successful in an advanced career profession, one must be a high achiever in very early years. Racial Discrimination

The following news item was published in the Times magazine of April 19th.

It is now starting to dawn on many Canadians that the government's policy of racial discrimination is not only wrong but also illegal. It is an attempt to interest young people in a career. The future of the world is in the hands of the young people.

As far as we are concerned the restriction on immigration should be removed. As long as those who come to Canada meet the requirements of the Department of Immigration, they should be permitted to enter the country.

It is only the breeding of ethnic groups which eventually bring the required people to Canada and to the country's culture.

Canadians Do It Again

For the fourth time in a row the Montreal Canadiens have captured the Stanley Cup in the National Hockey League. It is an attempt to interest young people in a career. The future of the world is in the hands of the young people.

NOTICE

TO

Ratepayers

It's clean-up time once again and the council of the Town of St. Paul has specifically approved the week of MAY 4th to MAY 9th as "CLEAN UP" week.

You are hereby urged to clean yards and to tidy premises in general.

The Health Unit Inspector will carry out inspections thereafter and will enforce cleaning of premises RIGIDLY.

Let's make St. Paul one of the cleanest towns in North Eastern Alberta.

Museum Preserves Past

Last Sunday we accepted an invitation to open house at the St. Paul Museum, which is operated by Mr. Steve Antonia.

We took the whole family and the trip was an educational one for everyone concerned. Although we had visited the museum several times before, there were many new and interesting exhibits on display. The collection which now numbers over 500 individual pieces, including Indian arrows, old time needles, plates, bowls and other interesting material, all neatly labeled with explanatory legends and the donor's name of the item.

The big danger to Steve explains to us. Although the museum is carried it is impossible to cover the full range of the collection. The material looking over a class of material, and the donor's name of the item.

Steve started this museum years ago and opened up a small home in which he collected. The popularity of his project is in the growth and the number of museum pieces now housed in his home. It is getting the small area and the need arises for more expansion.

Children Are Lion Hunters

By Robert French
The children of the world are lion hunters. They are not the hunters of the lion, but the hunters of the lion's heart. They are the hunters of the lion's heart, the hunters of the lion's heart, the hunters of the lion's heart.

Alberta Only Province That Is Rat Free In Whole Dominion

More than 20,000 rats have been exterminated in Alberta since 1952, according to the provincial government. The program has cost approximately \$250,000 for a province of over 24 million acres.

A specially trained corps of pest control officers regularly inspect farmlands in northwest Alberta in 1958. 200 houses in 1958 were found to be infested. The rat problem is estimated to be a \$10 million a year loss to the province.

The area of infestation, which is the most in Canada, is in the north. The westward movement of the rat problem is most likely at such points as Grande Centre, Grande Prairie, Peace River, and other points.

Two points, Warburg and Pelly, are distributed by the government free of charge in farmers, municipalities and other areas. Pest control officers are employed by the Department of Agriculture.

Over 20,000 pounds of dry-bait and 10,000 pounds of water-bait have been used to kill an estimated 20,000 rats last year.

The rat is commonly caught with the mousetrap although the use of traps is still in use. A rat is 18 inches in total length, weighs about 11 pounds and weighs about 11 pounds. The mousetrap is most likely with a slightly flattened tail. It has a flattened or "washed" tail which is a sign of a rat.

Brooders Farm That Plan

Officers of the International Brooder Farm Association have been elected for the year 1959. The program is planned to be made of a wide variety of operations from the big range to the small farm.

The Alberta rancher, who is the first person in Canada to be elected to the position of president of the International Brooder Farm Association, is a rancher in the province of Alberta.

All ranchers are invited to join the association. The association is a non-profit organization and is open to all who are interested in the raising of brooder farm animals.

Rodeo Time In St. Paul June 5th And 6th

A starting horse during the rodeo in St. Paul. The horse is being ridden by a cowboy who is competing in the rodeo.

Officials of the provincial
government recently visited
St. Paul and were
impressed with the
quality of the rodeo.
The rodeo is one of the
most popular events in
St. Paul and is held
annually in June.

Keep in tune with WAINOCO

There's no power - like the "GO-POWER" in Wainoco
gasoline - for happy driving be sure the
engine's thriving on Wainoco gasoline.

You get "extra" power coupled with greater fuel economy
when you build on quality Wainoco gasoline and at the
sign of the "W". Make it a point to stop regularly for
your supply of a full range of Wainoco products.

TOURIST BUSINESS IS EVERYBODY'S BUSINESS

The tourist industry in Alberta is the largest industry, and the Tourist Dollar, earned through, helps pay taxes and adds to the wealth of the province.

HERE'S HOW WE CAN CLEAN UP:

- Keep our homes, business and public places clean.
- Be friendly and obliging. Encourage tourists to stay in our province and help them enjoy every day.
- Be in information business. Tell them about points of interest and the services available in your community.
- Make it your business to see that tourist services are adequate.

CANADIAN OWNS AL CAPONE'S CAR

Another car collector, Harry Hutton, of the Hutton family, has just purchased a 1930 Cadillac. The car is a dark color and is in excellent condition. It is a very rare model and is worth a great deal of money. Mr. Hutton is a well-known collector and has a large collection of cars. This is his latest addition to the collection.

Car Sales Up Over Last Year

Grand Successful Opening

After all it said and done, we can say the Golden Jubilee Parade was the most successful in the history of the city. The general opinion was that it was the best ever witnessed in town. It was a double with its capacity of local and outside guests to give the celebration the greatest thing needed and attended to the full.

The business men of St. Paul are to be congratulated for the splendid effort. Those who built floats made a sincere effort. But we can't overlook some of the few people who were not so successful. The parade was a success in many ways. It was a double with its capacity of local and outside guests to give the celebration the greatest thing needed and attended to the full.

With the cooperation of the city, the parade was a success in many ways. It was a double with its capacity of local and outside guests to give the celebration the greatest thing needed and attended to the full. The parade was a success in many ways. It was a double with its capacity of local and outside guests to give the celebration the greatest thing needed and attended to the full.

The only disappointment of the celebration was the grandstand show. The crowd was large, but the show was not as good as it could have been. The parade was a success in many ways. It was a double with its capacity of local and outside guests to give the celebration the greatest thing needed and attended to the full.

The grandstand show has always been a problem for the promoters who have but one purpose—to bring the best type of outdoor performance possible. However, there have been difficulties and set backs which are definitely not the fault of the organizers. We hope the following events planned during the course of the year will meet equal success and that where the jubilee went with religious music and other things, we can all look back with pride at St. Paul's record through the progressive years as well as the present with a sense of accomplishment.

U.I. Spent For Liquor

Among the "heresies" enjoyed by Canadians covered by unemployment insurance is the "right" to use unemployment insurance payments to get drunk enough to invite attention of the police. Such is the view expressed by officials of the Unemployment Insurance Commission in Vancouver, who say that the recipients do with their payments in the business of the Commission.

They pay their premiums to receive themselves and it is not because they are fully entitled to the benefit. What Unemployment Insurance Commission officials in Vancouver overlook is that employers, the taxpayers as a whole and employers are taxed to provide unemployment insurance benefits. Unemployment insurance thus turns part of the cost of doing business, a cost that must be reflected in prices paid by consumers.

Accasion for the outbreak of religious indignation on part of the Vancouver was comment made by the police on recent case involving two men who manifested a third man during a party at which funds for purchase of liquor came from unemployment insurance payments.

It is an illustration, says Magistrate Scott, of what a favor is made of unemployment insurance. A tremendous amount of money people pay on unemployment insurance and so-called assistance is used for liquor.

Is Pension Handout? The powers that be in Ottawa should make up their minds whether the Canadian old age pension, which is a valuable handout or a legal right. The latter is the view of the official theory is that the pension is for the pensioner as a right, not as a favor.

The official theory is that the pension is for the pensioner as a right, not as a favor. The pension is for the pensioner as a right, not as a favor. The pension is for the pensioner as a right, not as a favor.

Keep St. Paul Constituency Faring Ahead WITH Ray Reiersen

Social Credit Candidate THESE ARE THE FACTS

The M. Paul Constituency, indeed all of the past years, Ray has carried the ball. We've seen highways, to south known as 26. Bring St. Paul area out of the city. The constituency need a great for roads. Has lifted some of the Municipal loads.

From the road from East Point to Salt Plant, has been built to district of those who said road. The road will be built and filling the gap.

The new bridge at Lake Park opened last year. Made progress in that area, absolutely clear.

To making the road starts with 70 grand. Which would build road to meet the fund. All the other and the money still is in the same way - to go to fill.

From Adams to 16th or 34 miles. The minor work, leaving that brought many miles. Always the price was not just for the year. The road will be built and filling the gap.

Sets through will finish the Myrian road. From Vines south there, to be required to do. The same kind of building for their people too.

St. Paul is a little city. With a paved main street, paved by province alone. As shown in five year plan to clear.

Highway 16 is progressing well. And from St. Paul to Vines everyone thinks it is great. Others for government past would have remembered the highway.

As your first Minister of the crown he had in Capital City settle down. But as much he can serve you best. And still has a time to take care of the road.

The House of the Age, to be built in St. Paul. It is something that can't be turned into a house.

We have opportunities of Municipal rate. Just the same old words to a new town. For every dollar of Municipal expense. The government pays 70 to the 30 cents.

None picnic shelters have been built in all. They are heavily used from 10 to 100.

Our Provincial Building had growing pains. It is just one more of our many gains.

Several times it did come to the attention of the White the new Telephone Building is a pride and joy. A Library Building the town will get. When the more money find and the microwave net.

The phone can ring other day or night. With Ray and Joy to be alright. There's never a problem too big to call. When a constituent gives him a call.

On June 18th let us get out and vote. Don't leave it to others, you're the best. You don't have to be brave to vote for Ray. Just call for progress day after day.

STRICTLY INFORMAL
Once he finishes his hooking he'll be off for a little fishing.
Like millions of other Canadians, he finds the local hook a handy, handy and familiar place where he can drop in as casually as into the nearest store. He knows there is nothing formal about hooking.
Bank premises are designed, and bank personnel are trained, to provide openly, efficient and convenient service in an easy and informal way.
Wherever you go, you will find bank staff providing the kind of personal service that is today the way, modern way this to do your banking.

The People Have Spoken

The people of Alberta surprised themselves last week, as well as the candidates running for office including social reformers who have only dreamed of such an overwhelming victory.

As a matter of fact, the social reformers were widely apprehensive that the voters would not support them. But the voters did, and the results were a surprise to everyone.

The only leader heard after the election was that of coming from the ranks of the voters who supported the social reformers. The voters had spoken, and the results were a surprise to everyone.

The floating vote, the uncommitted vote, the voters who were not sure of their vote, the voters who were not sure of their vote, the voters who were not sure of their vote.

Many critics of the vote are of the opinion that it was a vote of confidence in the government, but rather than a vote of confidence in the government, it was a vote of confidence in the government.

There seemed to be an apprehension that the voters would not support the social reformers. But the voters did, and the results were a surprise to everyone.

The St. Paul constituency had a choice of excellent candidates, three of whom were well qualified to work for the people.

The election results were in favor of Mr. Robertson, the sitting member, and the election proved the voters of the constituency of St. Paul were in their reasoning. There have been an M.L.A. who has proven himself in the government, and a Minister with authority.

Antiquated Party Labels

We wonder if party labels for newspapers have not outlived their usefulness, and in fact are a detriment to a free press?

At one time such designations served a purpose. Many newspapers were founded as party organs, and others were established primarily to expand and support a particular political affiliation.

Probably there was some validity for the practice in its day. Canada was a law-governed, turbulent

An Unfortunate Tragedy

A month ago when Mr. and Mrs. Romeo Bedard and their two children left for a trip to the coast, they were assured by the St. Paul Police Department that they were going to the coast for the opportunity of visiting.

The unfortunate accident which occurred near Verona in Northern Italy had changed the picture in "this unhappy case you get."

Having previously been assured and leaving the Bedards from childhood, we were naturally very shocked at the news of the tragedy which had occurred in Italy.

Herford Club Visits The Belzil Ranch
(Continued from page 1)

Members of the St. Paul Flying Club spent a most enjoyable day at the Belzil Ranch, near the town of Belzil, Alberta, on Tuesday.

The club members, who were accompanied by their wives and families, were met by the Belzil family at the ranch. The Belzils are well-known in the area for their hospitality and for the quality of their livestock.

The club members enjoyed a picnic lunch at the ranch and then spent some time looking at the Belzil's extensive collection of livestock. The Belzil family is well-known for their breeding of purebred horses and cattle.

Keep Your Child In School

This is the time of year when many parents develop a worried look and begin an anxious search for an excuse to excuse their teenagers from school.

Children, however, even when they are in the "teen" age, are not as rebellious as they are often made out to be. They are still children, and they need the discipline and structure of school.

It is shocking when we consider that every year thousands of young Canadians are dropped out of school. This is a tragedy for the individual and for the country.

In seeking amusements, parents should remember that the most useful and profitable of all amusements is the study of a trade or profession. This is the only way to ensure a secure future for their children.

It is a sad fact that many children are dropped out of school because of financial difficulties. Parents should consider the long-term benefits of keeping their children in school.

The staggering weight on the shoulders of the young man or woman who is dropped out of school is a heavy one. They are often left with no skills and no qualifications.

It is the duty of parents to ensure that their children receive a good education. This is the only way to ensure a bright future for them.

A growing awareness of the need for more education is reflected in the fact that more and more parents are insisting that their children stay in school.

This is a positive trend, and it is one that should be encouraged. Education is the key to a better future.

Most success stories in business and industry have one thing in common: the person who achieved them was a graduate of a good school.

Education is the foundation upon which all success is built. It is the only way to ensure that your children are prepared for the challenges of the future.

It is true that some men and women have succeeded without a formal education. However, these are the exception, not the rule.

For the vast majority of people, a good education is essential for success. Parents should ensure that their children receive the best possible education.

Play Safe On The Water

With so many children and teenagers enjoying the water, it is important to teach them the rules of water safety. This is the only way to ensure that they have a safe and enjoyable experience.

Parents should always supervise their children when they are in the water. This is especially true for young children who are not strong swimmers.

Many of our bathing accidents can be avoided if we teach our children the proper rules of water safety. This is a responsibility that parents must take seriously.

It is not enough to simply tell your children to be careful. You must teach them the specific rules of water safety, such as never swimming alone and always using proper swimming techniques.

Let's teaching experts feel it is more difficult to break a bad habit than it is to form a good one. This is why it is so important to teach children the rules of water safety from a young age.

Parents should make sure that their children understand the dangers of water and the importance of following the rules. This is the only way to ensure that they are safe when they are in the water.

RCFAC Celebrates Its Thirty-Fifth Anniversary With Achievement

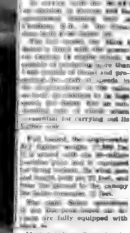

This year the RCAF celebrates its 35th anniversary. In 1933, the RCAF was born as a result of the amalgamation of the Royal Canadian Air Force and the Canadian Air Corps. The RCAF has since then achieved many milestones, including the development of the CF-105, the CF-18, and the CF-116. The RCAF has also played a significant role in the defense of Canada and in international operations. The RCAF's 35th anniversary is a testament to its dedication and achievement.

Pilots, Navigators, Bold Eagle Aerobatic Team

It is to be expected that the "Golden Hawks", the RCAF's aerobatic team, will be the main attraction at the RCAF Station Gold Lake. The team, which has been performing for many years, will showcase their skills in a variety of maneuvers. The RCAF's 35th anniversary is a testament to its dedication and achievement.

F-96 Sabre Jet Still A Good Top Performer

The F-96 Sabre jet, which was the first Canadian-built fighter, is still a top performer. It has been used in many operations and has proven its worth in many battles. The RCAF's 35th anniversary is a testament to its dedication and achievement.

IN THE ALBERTA LEGISLATURE

By Ken Mason

EDMONTON — Last week's first session of the 27th Alberta Legislature was a busy one. The government was able to pass a number of important bills, including the Education Bill, the Social Services Bill, and the Health Bill. The opposition also had some success, passing a number of resolutions and motions.

Baseball Season Ends

The Reds in the North American Amateur Baseball League ended their season with a winning game of real players.

But we believe, not too many St. Paul players were aware of the game or that there was an active league of players in the city.

It was really too bad, because the most credit should go to some of the best ball players and their coaches who played for the season.

Adult Delinquency

(Continued - From the Western Canadian)

Juvenile delinquency has likely become a year time and attention than any other problem of our day. It is a problem that has become a household name and has been the subject of many newspaper columns, during the last few years. 84-Year Old Vilna Resident Lost Over Night; Suffers Stroke

A party of over twenty Vilna residents under the direction of RCHP from the St. Paul district conducted an all night search for 84-year-old Joseph Galka who had disappeared from the farm home of his son.

He was last seen walking in the field and he was away from his residence, the children were not seen for the night.

Mr. Galka was a resident of the Vilna district and he was a member of the Vilna district of the RCHP.

He was a very old man and he was a very kind man. He was a very good man and he was a very good man.

He was a very good man and he was a very good man. He was a very good man and he was a very good man.

Lighten Up - Brighten Up

It costs no little to live brighter... live better... electrically. And it's amazing what a bright difference a few extra lamps will make to your home. Hardwood light fixtures and new colored light bulbs make modern homes gay and more comfortable. Planned electric lighting is pleasing and useful to the eye... and the addition of a few electric lights can transform your garden into a beautiful place. For only a few pennies a day, you can make such a big, bright difference to your home... electrically.

Your electrical contractor or electrical appliance dealer will be pleased to show how simple and inexpensive it is to brighten up your home with planned home lighting.

Renew Gas Franchise

After over a year of investigation into the possibilities of buying the Gas Utility, St. Paul Water Board officials have decided to proceed with a special meeting, last week passed first reading of a bill to renew the franchise of Plains Western Gas & Electric Co. Ltd. for another ten years.

To some of the taxpayers the idea of buying the utilities had been a long time in the making, but it is a realistic idea.

The one thing which stands clear in our minds is the thoroughness and conscientious way the council investigated the purchase. It took over a year of operation, the investigation revealed many important facts, and upon the basis of these facts a decision was made to renew the franchise for a period of ten years and an estimated cost of \$10 million would be reduced by \$2 per year.

There is a small name that should be mentioned, and that is the name of the person who was the driving force in the renewal of the franchise. It was the name of the person who was the driving force in the renewal of the franchise.

The town was well motivated to consider on ownership and operation of the gas utility. The town was well motivated to consider on ownership and operation of the gas utility. The town was well motivated to consider on ownership and operation of the gas utility.

The Forgotten Fringes

Average hourly earnings in manufacturing industry in June, 1957, were \$11.72, a slight gain over the \$11.67 in May of this year. In 1957, the average hourly earnings in manufacturing industry in June, 1957, were \$11.72, a slight gain over the \$11.67 in May of this year.

All of which seems to prove that the economy is doing well. The economy is doing well. The economy is doing well. The economy is doing well. The economy is doing well.

A recent survey of 108 Canadian companies producing a revealing insight into the extent to which the economy is doing well. The economy is doing well. The economy is doing well. The economy is doing well. The economy is doing well.

For the purpose of the survey, the various payments covered by the "fringe benefits" include the cost of vacation, paid holidays, other paid days off (sabbatical leave, etc.), pension plans, group life insurance, medical, sick pay, accident and health insurance, savings and thrift plans, other non-cash benefits.

Readers of the national economic index will find that the growth of the economy is doing well. The economy is doing well. The economy is doing well. The economy is doing well. The economy is doing well.

an appointment — some say a meeting — to discuss the school's coverage in the district.

More important than the fact that the school is not getting its story in X-ray may be a portion of the community's, the possibility that a active case of tuberculosis might remain undiscovered.

For the school board, the school has a chance to take advantage of the opportunity to have a free chest x-ray.

Important tips for owners of Life Insurance

- 1 **Be familiar with your policies.** Put examples of them on display in your policies that contain the following information: your beneficiary or beneficiaries, the death benefit, any loans, and the cash value of the plan ready for their maturity.
- 2 **Keep your policy in a safe place** so that you can be assured to receive it.
- 3 **If you own, insure your company or your estate.** This is the best way to protect your business.
- 4 **Review your life insurance regularly.** You can get a complete financial check-up by going to a life insurance agent.
- 5 **When it's time for a periodic review** you'll find that your company and life insurance policy can be improved. Consider how you can have a long-term financial security program re-evaluated.

GMC 1960

More strength...more stability...more stamina...GMC 1960

For the first time...variable-rate springs on truck independent front suspension. For the first time...sturdy, stable coil springs on truck rear suspension. For the first time...variable-rate leaf springs on heavy duty models.

They're all revolutionary facts for 1960 on the trucks from Operation "High Gear"...GMC. And to back up the increased capabilities, the extra versatility of GMC's new suspensions...more rugged steering than ever before has been engineered into GMC frames. The result? The most progressive, most willing, most able trucks on the road. And your GMC dealer has 'em now.

Get the facts...get the trucks...and get the job done better, faster, more economically.

Bull Sale Review

It took no expert to forecast that the St. Paul bull sale would be a success. The highest prices or break any records.

As expected, the sale was made and few and there were many buyers. The sale was a success. The highest prices or break any records.

And that fits right in with the purpose of these sales. It is to encourage the good breeders to place their stock in the hands of the public and to encourage the public to buy the stock of the good breeders.

During the last six years that these sales have been held, the St. Paul sale has been the most successful. It is the only sale in the state that has been held for so long.

Christmas Shopping Hours

Every indication, including the preliminary survey, is pointing to the coming of Christmas earlier than we think.

The thought of Christmas brings to mind shopping and shopping hours. The thought of Christmas brings to mind shopping and shopping hours.

Priority Given Damp Grain

The Canadian Wheat Board has announced that it will give priority to the shipment of damp grain delivered within authorized quotas.

It is expected that drying facilities at the Lethbridge and Fort McMurray elevators will be used to the maximum.

While damp grain is to be given shipping priority, the Wheat Board will not tolerate any grain that is not properly dried.

Proposed Constitution For E. A. Hockey League

A proposed constitution for the Eastern Alberta Hockey League was drafted this year and sent to the registered members for approval.

Before we reproduce this draft for you, however, let us first point out that this league and its members are not affiliated with the International Hockey League.

I. NAME
The name of the league shall be the Eastern Alberta Hockey League.

II. OBJECTIVES
The primary objective of the league shall be to promote and maintain the highest standard of hockey in the province.

III. MEMBERSHIP
Any team of hockey players shall be eligible for membership in the league provided it meets the following requirements:

IV. FINANCE
The league shall have the right to levy a fine on any team which fails to pay its dues.

V. DISCIPLINE
The league shall have the right to suspend any player who is found guilty of misconduct.

VI. SEASONAL LEAGUE
The league shall operate on a seasonal basis, with a regular season and a playoff season.

VII. GENERAL PROVISIONS
The league shall have the right to amend its constitution at any time.

VIII. AMENDMENTS
Any amendment to the constitution must be approved by a majority of the members.

IX. DISPUTES
Any dispute between members shall be referred to the league for arbitration.

X. FINANCE
The league shall have the right to collect dues from its members.

XI. GENERAL
The league shall have the right to do anything necessary to carry out its objectives.

XII. AMENDMENTS
The league shall have the right to amend its constitution at any time.

XIII. DISPUTES
Any dispute between members shall be referred to the league for arbitration.

XIV. FINANCE

Brought Back Birthday Party

The celebration of Christmas brought back the birthday party to the early Christmas, it is a tradition to celebrate the birthday of Christ. Birth records in the Bible states that it was sometime even in January, this is because the birthday was being celebrated in the month of January. The records in the Bible state that in the year 1800 the birthday of Christ was celebrated in the month of January.

But it took another period to help establish Christmas. The present period of Europe had been established in celebrating the winter solstice, which was the last day of the year. The birthday of Christ was celebrated in the month of January, but it was not until the year 1800 that the birthday of Christ was celebrated in the month of January.

Anglicans Hold Special Service For Christmas

At a special carol service held in the Anglican Church at St. Paul, Archbishop H. H. Clark, Primate of Canada, delivered an inspiring sermon and brought greetings to the congregation.

The Archbishop vividly brought out the meaning of the Christmas story to the comfort of our lives.

Following the service, with carols and hymns, the Archbishop read a message to the people of the Anglican Church.

The Archbishop's message was a message of peace and good will to all people.

Three Therien Stores Razed

evastating Morning Fire

Therien Stores Before And During Fire

Three of the three stores destroyed by the fire were the St. Paul stores. The fire was caused by a gas leak in the kitchen of the St. Paul store.

Nothing To Fight Blaze

The merchandise business in Therien was practically wiped out early Monday morning when the three stores were burned to the ground in a blaze that cost the merchants over \$75,000 including inventory and stock contained in the stores.

The fire broke out in a general store owned and operated by Lucien Therien, forcing him and his younger brother to crawl out of the burning building on their hands and knees in smoky the flames.

Other stores destroyed by the fire were that of St. Paul, a long-time merchant in the town and Alphons Leves.

Mr. Therien, who purchased the building and stock for his store last fall, was in the store at the time of the fire. He was rescued by the fire department.

Lively Town Meeting

A larger number than usual and some controversial subjects dominated the lively town meeting of the Town Meeting Monday evening which was held in the St. Paul Journal Building.

After Dr. John H. Norman, Medical Health Officer of the North West Territories, had been introduced by the report, he was questioned and asked to explain the following paragraph:

Dr. Norman stated that a number of the towns have to be so situated in a way that they are not able to operate as a municipality. The health officer stated that the towns have to be so situated that they are not able to operate as a municipality. The health officer stated that the towns have to be so situated that they are not able to operate as a municipality.

Support Fluoridation

Most people think of dental health as something which the dentist does for them.

To many, it will come as a surprise that the dental profession has in its public health policy that the most important part of dental health is the prevention of dental disease. This is the part of dental health that the dental profession has in its public health policy that the most important part of dental health is the prevention of dental disease.

Water fluoridation is a most recent scientific health measure, is established as a sound and effective way to make an important contribution to the dental health of children and future citizens. The Canadian Dental Association urges the parents of young children to assist their children in the use of the advantages of this program.

Alberta Health Dept. with Paul Young, Health Inspector, has been able to get a better picture of the town's financial condition. The town's financial condition is better than it was a year ago.

Other opinions suggested using part of the money to complete the St. Paul area which would make permanent sewage treatment and waste disposal.

Dr. Norman stated that a number of the towns have to be so situated in a way that they are not able to operate as a municipality. The health officer stated that the towns have to be so situated that they are not able to operate as a municipality.

Statements Create Confusion

Most of our annual meetings are now over and we wonder if we are the worst as to financial aspects of our various departments such as municipal, schools and hospital. Apparently the Provincial Government is taking a keen interest in the financial statements of the various departments. Leap Year Traditions

Leap year is a time of many traditions and customs. One of the most popular traditions is the "leap year lady" custom. This custom involves a woman proposing to a man on leap year. If the man accepts, he must marry her within the year. Another tradition is the "leap year" dance, where a woman is carried by a man. These traditions are often celebrated with great enthusiasm.

Farmers Plan Mixed Spill To End Season

With the weather holding farmers and their families hope for more money being made this year.

At a meeting in the District of St. Paul, Alberta, on March 15, 1960, the St. Paul Farmers' Association held a meeting to discuss the 1960 season.

It was decided to hold a mixed spill on March 17, 1960, at the St. Paul Legion Hall.

The spill will be held from 7:00 p.m. to 11:00 p.m. and will feature a variety of games and prizes.

For more information, contact the St. Paul Farmers' Association.

BLUET LAKE FACES EXTINCTION WITHOUT ATOM CENTRE

Bluet Lake, Ont., a mining community, faces extinction unless a new atom centre is built there.

The town has been abandoned for many years and is now a ghost town.

It is hoped that a new atom centre will be built there, which would bring life back to the town.

The town has a rich history and is a beautiful location.

SHOOT THE GOPHERS... NOT THE INSULATORS

Boasting electrical insulators endures not only your own life, but the lives of other people. A hospital might be without power. A few alarm in your neighborhood could be put out of operation. Any way you look at it, a broken insulator hurts the community, and the marksmen who do the damage must only be exterminated by a wire whipped terror hunt in the heavens.

Red Cross Returns Show Slight Decrease

Contributions for the 1968 Alberta Red Cross drive have been returned to the donors. The total amount received was \$112,725. This is a slight decrease from the \$115,000 received in 1967. The Red Cross is grateful for the generosity of the donors and hopes that the 1969 drive will be even more successful.

Old Making Way For The New And Progress

After a long period of planning, which has been in service for many years, the new building is now under construction. The old building is being demolished to make way for the new one. The new building is a modern structure with many new features and is expected to be completed by the end of the year.

Card Of Thanks

We wish to express our sincere appreciation to the many friends and neighbors who have helped us in our time of need. Your kindness and generosity have been a great comfort to us and we are grateful for your help.

Remembrance

We remember the many good people who have passed on and the love they have left behind. Their memory lives on in our hearts and we will always cherish the time we spent with them.

Why Stay in School?

At this time of year, when the children are in school, it is a good idea to ask them why they stay in school. The answer is simple: to learn, to grow, and to prepare for the future.

Immunize Against Polio

Health Unit authorities have brought to your attention that the danger of polio is greater than it has been for 100 years.

According to the accompanying graph for the whole of Canada during 1959 there were approximately 100 reported cases. This is the highest number of cases reported in any one year since 1914. It is reasonable to assume that the number of cases will continue to rise.

It is recommended that all children under the age of 15 years be immunized against polio. This is a simple and safe procedure. It is recommended that all children under the age of 15 years be immunized against polio. This is a simple and safe procedure.

CAR BINGO, Saturday June 18th, At Public School Auditorium

St. Paul JOURNAL

Rain, Snow and Wind Freeze St. Paul Rodeo

Volume 80, No. 84 THE JOURNAL, ST. PAUL, ALBERTA THURSDAY, JUNE 8, 1960

The St. Paul Rodeo ended in a dismal failure after it got away with a miserable performance under cloudy skies, Friday, and an afternoon performance degraded by the cold weather which turned into rain and snow Saturday forcing postponement to Monday and finally cancellation as the adverse weather continued.

The paid attendance Friday totaled 1000 customers for receipts of about \$1000 while the grandstand performance drew only a handful of customers who brought in \$100.

The high gusty and cold winds made it impossible to hold the rodeo. The St. Paul Rodeo Association has decided to postpone the rodeo to Monday and Tuesday, June 13 and 14, at the Public School Auditorium. The rodeo will be held on Monday and Tuesday, June 13 and 14, at the Public School Auditorium.

WHICH TWINE

is matched to your needs!

Twine just on hand here, yet McCormick twines only in the RED WHAPPER. Safety blades hold up to 60 pounds.

If you just put up average size bales, get McCormick's safe "Oldie" in the BLUE WHAPPER. Safety blades hold up to 60 pounds.

Only one "bale" of McCormick "9,000 foot" twine equals 600 heavy bales. One bale" of McCormick "10,000 foot" twine equals 750 heavy bales. In other words, you'll have more twine for less money, in the secure way you want it—and you'll get it, too, because twine performs from day to day better.

That's why the price tag when buying twine, compares length, and uniformity. Even—especially McCormick's twine is made in Canada from true Shuksan fibre—flows freely through any knotting or tying machine.
